

From Enchantment to Star Gazing

The 2011 NORTH AMERICAN LILY SOCIETY Annual Convention and Show July 13 - 17, 2011

The Convention

The Ontario Regional Lily Society and the Royal Botanical Gardens are pleased to invite you to attend the North American Lily Society 2011 Convention in beautiful southern Ontario with all its many attractions. There will be many interesting speakers who will share their Liliium experiences with you. Two lily-based excursions are offered to tempt you. The show promises to be spectacular. Catch up with old friends and make some new ones – what's better than discussing and obsessing about lilies! The convention will be held in two venues, the Royal Botanical Gardens, where most activities will take place, and the Holiday Inn Burlington, where we will have some of our meals. If you attended the convention held in 2001, you will be pleasantly surprised at the new addition, renovated gardens, and other enhancements at the rejuvenated RBG – there is so much more to see.

Attractions

The Royal Botanical Gardens

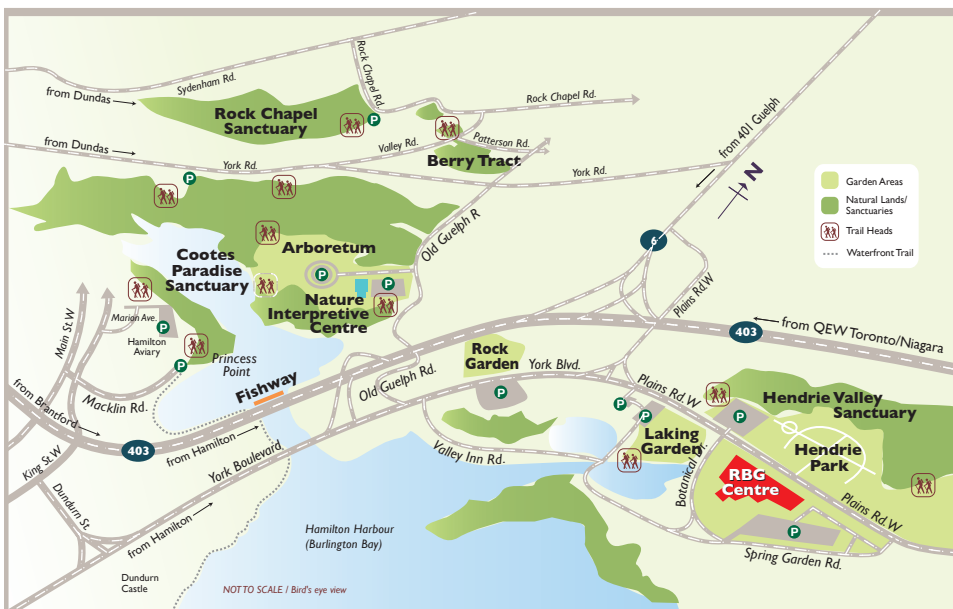

Listed in “1001 Gardens You Must See Before You Die”, the gardens and facilities are “world class”. The facilities of the RBG will be the site of most of the NALS Convention and Show events. You’ll be hard pressed to take in all of the beautiful gardens. You may just want to stay an extra few days to take it all in. Be sure to see the newly renovated lily collection in Hendrie Park.

The Show

A sea of lilies will be on display in the Camilla and Peter Dalglish Atrium at the Royal Botanical Gardens. Lily stems from across every division of the genus are expected from exhibitors from both near and far – you are sure to see something new, unusual or rarely shown. If you love floral design, the design section of this show rivals the best. The venue for the show is absolutely spectacular – an atrium that allows the stems to be seen in natural light, “living walls” to add to the horticultural excitement, and an outdoor patio off the atrium which beckons you to sit, relax and enjoy the water feature. This show is absolutely not to be missed!
